Target Audience & Objectives
This course is intended for practicing radiologists. At the conclusion of this CME activity, the participants should be better able to:

- Recognize unique injuries in the female athlete and imaging findings of musculoskeletal pathology in the hand, wrist, and lower extremity.
- Analyze 2010 lung cancer screening and staging guidelines and findings in the acute aortic syndrome.
- Describe the performance and interpretation of cardiac CT examinations in both ischemic and non-ischemic heart disease.
- Integrate digital mammography and breast MRI into clinical practice.
- Assess one’s ability to differentiate between benign and malignant renal masses and discuss renal tumor ablation.
- Identify nuclear medicine findings in thyroid cancer and other thyroid diseases and musculoskeletal conditions, including PET/CT evaluation of lymphoma.
- Apply the spatial approach when imaging a neck mass and review findings on emergency head CT’s.
Kiawah Island, South Carolina

Just 21 miles from the cobblestone streets of historic downtown Charleston, South Carolina, Kiawah Island Golf Resort provides an unforgettable coastal setting for meetings and vacations. The resort’s unparalleled array of gracious accommodations reside on a unique, ten-mile-long Low Country island fringed by a white sand ocean beach and acres of serene marshlands.

After meetings, five distinctive golf courses, including the famous Ocean Course, as well as two complete tennis complexes, nearly a dozen restaurants and lounges, a tranquil Low-Country inspired spa, and an extensive selection of nature programs provide a host of relaxing activities.
